DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the expandable pouches (claims 23 and 38), the means for closing and securing the top of the pouches (claims 25 and 40), the ring binder clips in the carrying case (claim 42), the pouches attached to the inside of the carrying case (claim 43) and the handle and/or strap (claim 44) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 19-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 19, line 10, there is no antecedent basis for “the rod loop”.

In claim 19, line 12, there is no antecedent basis for “the top and/or base”.

In claim 19, lines 12-13, there is no antecedent basis for “the desired said memorabilia holder”.

In claim 19, line 19, there is no antecedent basis for “the desired location”.

In claim 19, line 20, there is no antecedent basis for “said pivotable rods”.

In claim 19, line 22, there is no antecedent basis for “said rod”.

In claim 19, line 24, there is no antecedent basis for “said carrying case with rods moveably attached” and “the spine”.

In claim 19, lines 26-27, there is no antecedent basis for “said rod”.

In claim 32, line 2, there is no antecedent basis for “said stored memorabilia”.

In claim 32, line 35, there is no antecedent basis for “said top”.

In claim 32, lines 37-38, there is no antecedent basis for “the desired said memorabilia holder”.

In claim 32, line 43, there is no antecedent basis for “the desired location”.

In claim 44, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Allowable Subject Matter

4. Claims 19-48 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
